47 (new). The method of claim 7, further comprising:  
determining that licensure of the first content package for use on the first computing device is consistent with a first of said one or more terms.

48 (new). The method of claim 7, further comprising:  
performing at least one action in compliance with a first one of said one or more terms.

49 (new). The method of claim 48, wherein said first term requires collection of a payment as a condition of licensing the first content package for use on the first computing device, and wherein said action comprises collecting said payment.

50 (new). The method of claim 48, wherein said first term specifies that a payment is to be provided to a party associated with the second computing device, and wherein said action comprises providing said payment to said party.

51 (new). The method of claim 48, wherein said first term requires revocation of the first digital license, and wherein said first action comprises sending an instruction to the second computing device which causes the second computing device to make the first digital license unusable.

52 (new). One or more computer-readable storage media having computer-executable instructions to perform a method of providing access to a first content package on a first computing device, the method comprising:

receiving first data indicative of a first digital license, wherein the first digital license specifies one or more terms governing the relicensing of the first content package, wherein the first digital license is associated with the first content package and permits access to the first content package on a second computing device but not on the first computing device, and wherein the first content package is usable only in accordance with one or more digital licenses, said first digital license being one of said one or more digital licenses; and

licensing the first content package for use on the first computing device in accordance with said one or more terms, wherein the first content package comprises a content portion and the first digital license, and wherein said licensing act comprises:

creating a second content package which comprises:

said content portion; and

a second digital license which permits access to said second content package on the first computing device; and

transmitting said second content package to the first computing device.

53 (new). The one or more computer-readable storage media of claim 52, wherein said first computing device associates said second digital license with the first content package.

54 (new). The one or more computer-readable storage media of claim 52, wherein said licensing act comprises licensing the first content package for use on the first computing device in a manner that prohibits resale of the first content package.

55 (new). The one or more computer-readable storage media of claim 52, wherein said receiving act comprises receiving the first content package.

56 (new). The one or more computer-readable storage media of claim 52, wherein said receiving act comprises receiving the first digital license.

57 (new). The one or more computer-readable storage media of claim 52, wherein said receiving act comprises receiving data which represents said one or more terms.

58 (new). The one or more computer-readable storage media of claim 52, wherein the method further comprises:

determining that licensure of the first content package for use on the first computing device is consistent with a first of said one or more terms.

59 (new). The one or more computer-readable storage media of claim 52, wherein the method further comprises:

performing at least one action in compliance with a first one of said one or more terms.

60 (new). The one or more computer-readable storage media of claim 59, wherein said first term requires collection of a payment as a condition of licensing the first content package for use on the first computing device, and wherein said action comprises collecting said payment.

61 (new). The one or more computer-readable storage media of claim 59, wherein said first term specifies that a payment is to be provided to a party associated with the second computing device, and wherein said action comprises providing said payment to said party.

62 (new).
